PRODUCT
CATALOGUE

Founded as a family owned business in 2002, Burdem Plastik, is the leading plastics processor and producer in North Macedonia, and among the leaders in the wider Balkans area. As we have always prioritized offering the foremost customer service, keeping our production lines modernized, and have always maintained the highest possible level of quality to meet the demand in our local region, we have managed to sufficiently grow in production capacities and capabilities to differentiate ourselves from our competition.

From our foundation we have produced plastics products that have always been in demand in our market. Under increasing pressure from globalization and global competitors, we have continuously modernized our production lines, and have managed to supply our products at all price points while managing to keep sustainable practices as part of our ongoing operation.
